Sub.: -Structural safety of the building
Ref. to letter No. PEDS/PA-448/2019

Respected Sir / Mam,

The school building at Turki having builtup area 16920 sqft, is completed up to G+1 stories. A brief description is as follows.

Total built up area : $16920 \times 2 = 33840$ sqft.

Ground floor area : 16920 sqft

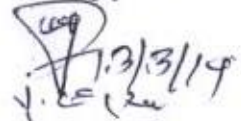

First floor area : 16920 sqft

Type of structure Load bearing with isolated footing.

All the rooms are properly ventilated with adequately wide passage and toilets.

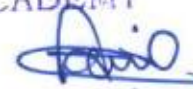

The construction is done properly, following the instructions of the engineer strictly and if it is maintained, the expected life of the building would be 90 years aprox.

Thanking you
